Curitiba, PR, Brazil | Remote | +55 (41) 99694-1615 | kevin.aug.vieira@gmail.com | linkedin.com/in/kevin-augusto/

AI Integration, Automation, and Digital Product Specialist with 8+ years of experience connecting marketing, operations, CRM, data, and web development. Built workflows using n8n, APIs/webhooks, practical Python, and Supabase/PostgreSQL, and extracted and cleansed web data for a database of nearly 200 establishments. Experienced in cross-channel measurement, lead operations, revenue metrics, and automated funnels. At Wipro on the Meta Project, led native CRM AI adoption, increasing usage by 150%, while conducting call listening, quality reviews, and structured coaching. At AK Branding, delivered 40+ web projects for SMBs and implemented chatbot workflows that increased lead capture by 250%. Combines practical technical execution, root-cause analysis, documentation, and remote collaboration to replace manual processes with reliable, measurable systems.

Professional Experience

Wipro, Curitiba, Brazil

September 2024
– July 2026

AI Integration, CRM, and Quality Assurance Specialist (Meta Project)

- **AI Integration and Adoption:** Led native AI activation in Meta's CRM from onboarding through hands-on coaching, increasing usage from 4 to 10 prompts/day per consultant (+150%).
- **Call Auditing and Coaching:** Conducted active call listening, quality monitoring, and structured feedback based on sales scripts, frameworks, and service standards.
- **Validation and Data:** Applied root-cause analysis and explored Power BI and Excel dashboards with the MIS team to identify gaps, validate results, and guide action plans.
- **Documentation and Governance:** Built playbooks, scripts, and operational materials while collaborating across product, quality, and consulting teams in a restricted-data environment.

Meu Barzin (Startup), Curitiba, Brazil

December 2025 –
March 2026

AI, Automation, and Data Product Manager

- **Automation Architecture:** Designed a conversational product using ManyChat, n8n, RAG, and zero-hallucination rules, connecting user workflows to a trusted database.
- **Data Extraction and Cleansing:** Scraped, cleansed, and organized data from nearly 200 establishments for a RAG database in Supabase hosted on a VPS.
- **Database and CRM:** Built database structures and CRM prototypes in Supabase/PostgreSQL and NocoDB to support operations, data exploration, and product workflows.
- **Lead and Funnel Diagnosis:** Captured 505 leads and analyzed the funnel, identifying 43.9% first-message abandonment caused by API latency.

AK Branding & Web Design, Curitiba, Brazil

March 2019 –
September 2024

Web Development and Marketing Automation Consultant

- Delivered 40+ digital projects for SMBs, managing web architecture, scope, timelines, budgets, and client communication.
- Implemented chatbots and UX flows that increased lead capture from 8 to 20-30 leads/month (+250%), plus landing pages generating 5 qualified leads/day.
- Ran A/B tests across ads, landing pages, and web journeys, using acquisition and conversion data to guide improvements.
- Implemented privacy policies, consent mechanisms, and LGPD controls across 100% of delivered websites.

Munzner, Curitiba, Brazil

October 2018 –
August 2024

CRM, Automation, and Revenue Analytics Specialist

- Built a 10-stage automated funnel in Bitrix24 and Sendpulse that attracted 10,000+ visits and generated approximately R\$50,000 in revenue.
- Tracked channels, acquisition paths, and CRM data to evaluate conversion, revenue, and ROI and guide funnel improvements.
