GTM, Sales Enablement and Growth specialist with 8+ years connecting products and complex technical capabilities to real buyers. At Wipro on the Meta Project, I turned product updates into value propositions, sales pitches and frameworks adopted by 150+ consultants and made the operation #1 globally for CRM AI adoption growth (+150%). At Meu Barzin, I architected a conversational agent with RAG and zero-hallucination rules, generated 505 qualified leads and 22.3% repeat AI engagement. At Munzner and AK Branding, I built nurture funnels (10,000+ visits, ~\$50k high-ticket revenue), CRO lifting leads +250%, and inbound/SEO content (10% visitor-to-lead). I use n8n, Power BI and native AI to expand my impact and measure pipeline through CAC, LTV, ROAS and funnel-bottleneck mapping.
