Operations, Growth, and Product professional with 8+ years of experience turning data into decisions, improving processes, and accelerating digital product adoption. At Wipro on the Meta Project, worked at the intersection of Product, Sales, and Operations, using Power BI and Excel to identify gaps and leading native AI adoption in CRM, increasing usage by 150%. In independent product work, structured CRM and databases with Supabase/PostgreSQL and NocoDB, built automations with n8n and practical Python, and developed a RAG-based conversational product. Experienced with Google Sheets, Google Analytics, Looker Studio, A/B testing, funnel analysis, and commercial process optimization.

Professional Experience

Wipro, Curitiba, Brazil September 2024 – July 2026

Product Operations and Growth Specialist (Meta Project)

- Operations and Performance: Worked as the bridge between Product, Sales, quality, and operations, keeping documentation, deadlines, and deliveries aligned with business objectives.
- Product Adoption: Led native AI integration into the CRM from onboarding, increasing usage from 4 to 10 prompts per consultant (+150%) and contributing to the operation becoming the fastest-growing globally for adoption.
- Data and Process Improvement: Used Power BI, Excel, root-cause analysis, call listening, and feedback to identify gaps, prioritize improvements, and guide action plans.

AK Branding & Web Design, Curitiba, Brazil March 2019 – September 2024

Digital Product and Project Consultant

- Processes and CRM: Delivered 40+ projects for SMBs, organizing scope, schedules, customer data, and digital workflows with multiple stakeholders.
- Experimentation and Conversion: Planned and executed A/B tests across paid campaigns, landing pages, and web experiences to validate hypotheses and improve acquisition.

Meu Barzin (Startup), Curitiba, PR December 2025 – March 2026

Product Manager and Product & GTM Lead

- CRM and Automation: Structured CRM databases and prototypes with Supabase/PostgreSQL and NocoDB and built n8n automations to organize data and operations.
- Discovery and Funnel Analysis: Conducted interviews and funnel analysis, identifying partner density and API latency, responsible for a 43.9% first-message dropout, as priorities.

Munzner, Curitiba, PR October 2018 – August 2024

Marketing, Growth, and Automation Specialist

- Pricing and ROI: Launched the company's first digital course as an entry product, securing 50 sales in its first 2 months and achieving a 1.0x to 1.5x ROI.
- Monetization and CRM: Built a 10-stage automated funnel in Bitrix24 and Sendpulse, measuring acquisition, conversion, and revenue to generate around R\$50,000 in high-ticket revenue.
